### PROFILE

In my two years of experience as a junior developer of web applications and web pages, it could be of interest, since I have knowledge in languages such as:

- Javascript
- HTML
- CSS

And technologies that facilitate the conclusion of large projects such as:

- React.js
- Next.js
- Tailwind
- Github / Git
- Docker

My teamwork, and my love of learning and sharing knowledge is very beneficial in an organization that aims to grow.
